

CSP SILENT VENDOR WINDSHIELD - VERTICAL

General description of the product

Product to place car specifications on a printed A4 sheet. With the A4 format, the content is legible and easily accessible. Customers may comfortably learn the specification of the car they interested in. Special-purpose product for automotive industry. In view of the possible outdoor car display, the product is made of suitable materials with high and low temperature resistance (details below in section Product specification). It can be used both outside and inside the showroom.

Application and use instruction

The product is to be placed in the gap between the dashboard of the vehicle and the windshield. Product designed to be placed inside the car. A specially adapted holder allows the product to be placed between the windshield and the dashboard (*Picture 2, page 2/2*). The product can be used both outside and inside the showroom. When being installed, the product should be clean and care. The glass and dashboard should be clean. The materials used do not scratch the glass, however, in case of sand grains or other debris etc. getting in between the product and the glass, scratches may occur, which Exacto Holding is not responsible for. In order to insert A4 cards with specifications, the front part of the product with printed graphics should be tilted maximum to 10cm. At the first use, the product can be electrostatic and apply with low resistance. To replace the information sheets, the product must be disassembled. Due to the different vehicle designs, we do not guarantee that the products can be used on all car models.

Product specification

Terms of use	Temperature resistance of the product -20°C to 120°C
Storage conditions	Store in the original package at a temperature of 14-25°C and a relative humidity of 40-65%
Additional remarks	As the product adheres to the windscreen and is bent, after very hot and sunny days, at the end of the day it may slightly deform in the shape that the glass had, however, this does not spoil the product and does not cause inability to continue using it
Dimensions of the product	220mm x 390mm (with mounting part)
Dimensions of the graphic area	220mm x 340mm (graphic area without mounting part)
Material thickness	Rear: 3 mm, front: 1.5mm
